

greetings people of the world,

this email serves to inform the relevant department and institutions, i.e. german consulate south africa, home affairs, united nations office south africa and world bank and/or give advice as to how to proceed, considering the information and declaration below/attached, to become stateless and revoke all registration with any state, country or nation, thus rescinding current status of 'german citizen' and 'south african resident', subsequently obtaining status 'stateless'.

through a series of ongoing investigations and research, it has become evident that once sovereign nations are now registered privately owned corporations, trading as such on various stock exchanges in a casino like fashion, not for the benefit of the people or citizens alike; no central or reserve bank is collectively owned by the people, nor are they controlled by any respective government (except for less than a handful small countries); each nation's debt exceeds its budget or GDP by a huge margin, in some case more than double, never to be paid back; the current system is not based on the will of the people and every attempt to seek remedy, redress or recourse, i.e. filing with many of the highest courts in the world, is stifled, ignored or sabotaged, because all judges acting as agents for the banks; see constitutional court cases CCT 19/14, CCT 218/14, CCT 225/15, CCT 78/16, all dismissed in its entirety, although unlawfully and erroneously, writ of error included, please see :

>>> <https://giftoftruth.wordpress.com> <<<

for records and history, furthermore see attached supporting documents.

i, as a people, a living soul living in my body and walking the earth, home to all of us, can no longer consciously, knowingly and/or conscientiously partake, support or be associated with any of the current 196 countries on earth, thus my express wish and decision is to be free from any imposed and involuntary servitude, whether by way of registration shortly after our human birth or subsequent tacit consent by simply taking on an identity or person; i will forfeit any benefits from any state for true freedom from debt slavery, until such time maybe, when the corporate empires have fallen and peace and prosperity returns to the people; i am not forfeiting any treasury direct account(s) set up in my legal name, by various states and banking cartels, held at their treasuries, central banks or revenue offices; although established fraudulently and with deceit, these accounts and the balance they contain could assist the people in building a better world once access is secured; nor do i cede any right or freedom to voluntary contract with whoever and whatever i wish to do so, I am still sojourning the world exploring its vast multitude and plethora of opportunities, for as long as i do no harm and cause no loss and/or impede the freedom of others.

i have done everything possible to demonstrate my standing, i.e. recorded myself as a living man with the republic of good hope, a global common law society, and have been using their documents in place of RSA ID book and drivers licence successfully in the last 4 years; furthermore i am a high contracting party to the new earth nation treaty >>> <https://newearthnation.org/the-new-earth-treaty/> <<< made a declaration to establish a non-territorial micro-nation, which was served on ministry of defence, foreign

affairs and the presidency; i'm also in possession of a world passport, issued by the world service authority, its founder gary davis to become the first man to voluntarily renounce citizenship and nationality, and by doing so, setting a precedent for others to follow;

my suggestion is, to return the german passport, which never belonged to me to begin with, but the issuing authority, issued only to a legal person/name and to return all RSA documents, i.e. ID book, drivers licence and permanent residency to the relevant departments; at the same time for the UN to endorse my world passport, adhering to their original charters, assisting me to travel freely; this could be accompanied by a short note from the UN, clarifying my status as stateless and subsequently affirming unhindered freedom of movement.

the republic of good hope did print a small batch of passports a few years ago, some of its members successfully crossing southern african land borders, although sometimes involving lengthy diplomatic conversations; other nations have done so many years ago, like the haudenosaunee and iroquois in the late 1920's, travelling without any problems globally on their own passports, rediscovering this right very recently :

>>> <https://www.uslaxmagazine.com/fuel/international/haudenosaunee-use-own-passports-stand-proud-to-represent-nation-at-world-cup> <<<

the 'aboriginal' passport (aboriginal is another derogatory term, meaning non-original, but due to lack of knowledge the word is still taught and used, the dark skinned people of australia should be referred to as 'originees') initiated by michael mansell in the 1980's, has recently undergone a revamp too :

>>> <http://apg.org.au/passports.php> <<<

if you think this is a rather unusual request and/or legally AND lawfully not possibly, please provide proof thereof, i.e. what law or which charter forces me to be subject to any nation, state and/or obtain a certain citizenship ? i recall some german statutory 'law' listing statelessness as a criminal offence, in which case the burden of proof is with the german government, as per maxim " who claims, proves " and provide evidence how that particular act applies to me as a private man; the only state i wish to live in from now on forth is a state of mind;

the attached files highlight some sections relevant to my claim like :

article 15 of the universal declaration of human rights reads :

- 1. Everyone has the right to a nationality.*
- 2. No one shall be arbitrarily deprived of his nationality nor denied the right to change his nationality.*

if everyone has got the right to a nationality, does this imply we are free to chose or make use of that right ? do i have a right or freedom to be without nationality ? is this an enforceable right ? am i forced to have a nationality ? who grants such right ? do i have the freedom to be a native or national of the earth ?

if i have a right (granted or not) to change my nationality, can i change it to 'without nationality', i.e. give it up voluntarily ?

article 2 from the declaration on the rights of indigenous peoples :

Indigenous peoples and individuals are free and equal to all other peoples and individuals and have the right to be free from any kind of discrimination, in the exercise of their rights, in particular that based on their indigenous origin or identity.

the very term 'indigenous' is a label created by so-called world leaders, not far from an insult or the word 'indigent' (poor, needy), i am not indigenous, i am a native, a people or national, part of a nation of people; tracing my biological ancestry, somewhere in central europe, before its corporatization, i am a descendent of the marcomanni, alemanni, franks, angles or saxons, native to that particular region but not bound to it.

section 21 of the bill of rights : freedom of movement and residence

(1) Everyone has the right to freedom of movement.

(2) Everyone has the right to leave the Republic.

this particular section i've pointed out to prosecutors, magistrates and peace officers, since their constitution (the RSA constitution also known as act 108 of 1996) even makes provision for my claim, i have left their republic (RSA) and entered another republic, the republic of good hope, by my free will, freedom of association and an unalienable right to self-determination; i do remain on the land commonly known as southern africa.

interestingly the UN is now promoting global citizenship, although in a very different context, i need to reiterate here, i can cannot be a citizen, much rather do i have a citizen, courtesy of the corporate government, allocated to me; i am a people, a living man; in addition the UN embarked on a mission to tackle and deal with the alleged problem of stateless people on the planet, currently ca. 12 million, in other words being stateless isn't exactly a rare condition.

lastly but not finally i would like to draw your attention to a 1985 letter by state senator wayne stump with regards to certain freemen, their status, the right to travel freely and as he states " properly rescinded contracts " (see attached)

in the famous words of justice luis d. brandeis, who, ironically sat on the very table with benjamin freedman and woodrow wilson, on the 23rd of december 1913, when the federal reserve act was signed into law, thus enslaving the better part of the world to a fraudulent FIAT money system;

"Our government... teaches the whole people by its example. If the government becomes the lawbreaker, it breeds contempt for law; it invites every man to become a law unto himself; it invites anarchy."

anarchy meaning nothing but 'an archon' or 'without a leader', which, as long as no harm is done, isn't necessarily undesirable, especially when all leaders, emperors, kings and queens, come and gone, have failed their duty and the people as a whole, here a zen proverb comes to mind : " in a successful country, the king serves its people "

i'm available to participate in any dialogue and/or arrange for a physical meeting, regardless what future communication, please call me jan, not mr lohfeldt, thank you,

truthfully

jan a people of the family lohfeldt
