DECLARATION OF FAITH

d[-_-]b

On this shortest day in the southern hemisphere, the winter solstice in the year of the virus, also known as the 21st of June 2020 AD according to the inaccurate Gregorian Calendar, we the people of the earth, representatives of the human race (origin unknown), state the following, comes now :

At a time of great concern and uncertainty, lack of faith and loss of respect for nature and her allies, it is the law of necessity redirecting mankind to simple values and worship. The strength, perseverance and humbleness of the cactus showing us the way, his medicine guiding us to seek the temple inside our mind, body and soul, a conduit to the Sound of Source and Source of Sound.

We hereby declare, by ancient rite, oral tradition and witnesses by men and women born of the earth but not from it, a syncretic and animistic church, from now on known by the name :

The Cactus Congregation of the Holy Huachuma

A voluntary association and informal body, a nation of people, non-codified, not registered nor subject to statutory requirements; a customary congregation, faith based, in respect of natural law.

Its spirit not embodied but received and communicated through Saint Pedro, the true custodian of sacrament and scared mysticism, safeguarding the cacti kingdom. A teacher without fear or favour, a wisdom keeper, taking the church to the people, rather than commanding people into a church.

In times of global deceit and overarching totalitarian control, aided by an inexhaustible system of regulations and restrictions, the discipline and simplicity of nature shall be our last recourse and remedy on our pathway to mortal freedom.

When church and religion have been subdued, privatized, co-opted and corrupted to the core, set up against each other, registered under state law and competing like businesses, it is our duty to correct those reputations and connotations, however difficult the task; nothing is more powerful than people forming a bond, sharing the same belief, trusting each other and working together for a greater goal or purpose in a world that can easily provide for all.

We hold no truth to be self-evident, although honourable but examined at all times :

1. All people are born free but not equal
2. All people have freedom of choice, association and self-determination, if no harm is done
3. When harm or loss is done, everyone has the right to seek remedy
4. Everyone has a private connection to his/her creator, master, guide, architect or the void
5. To achieve more than peace of mind, we must work together, for the freedom of all minds
6. We are not all one, we are many different ones
7. Everyone wants to do good, darkness is not evil nor bad, evil is evil and bad is bad
8. There had to be an 8th truth, like a 6th sense or the 7th dimension...

Our dictum : "Praise the Paradox"

Hail to Huachuma, Hail to the Pachanoi Parish, Hail to the Cacti Kingdom

We, the living people of flesh with blood flowing through our veins do invite you, the people of this earth and all the inhabitants of the universe (known & unknown), to join our congregation, or establish your own aligned associations, in our focused desire to live in harmony and be one with the universe and all its children.

Declared, witnessed, affirmed, autographed and sealed by thumbprint, the living souls and guardians of all that is sacred :
